

Leadership in Education Award – Nomination Form

Sinai Health (SH) staff and physicians (including senior Residents and Fellows engaged in teaching) are eligible for this award. Clinical Instructors of nursing groups are not eligible as they are not employed by SH when performing this role.

This award recognizes individuals who have demonstrated leadership in learner education through:

1. Fostering a system-wide culture where education is valued and supported
2. Demonstrating a sustained commitment supervising learners and/or improving the learner experience
3. Role modeling, facilitating and supporting the practice of preceptorship
4. Leading or participating in projects/research that advance learner education at Sinai Health

A strong nomination provides examples of these behaviours in all 4 areas.
