Please review the following information with your patient:

The Department of Psychiatry makes decisions regarding care based on balancing needs, availability of resources and patient preference. Care may include psychiatric consultation, psychosocial assessment, and time-limited treatment interventions. Please note: emphasis will be on psychiatric consultation to referring providers and time-limited episodes of care.

To ensure access to all patients, we are not able to provide assessments for patients who have been assessed or treated by a psychiatrist in Ontario in the last year. These patients should be directed to the practitioner who has been involved in their care.

The Clinic does not offer psychiatric assessments for legal, insurance, custody, CAS, WSIB or forensic reasons.

This form is not for individuals experiencing crisis.
Patients experiencing a mental health or addiction emergency should be directed to the nearest emergency department.

Referral Process: Please ensure the patient is aware of this referral. Within two weeks, patients will receive a letter acknowledging the referral. Staff will make **two** attempts to reach the patient and will leave two voice mail messages if available. The number will appear as Sinai Health. If we are unable to reach the patient, the referral source will be notified by fax and the referral may be inactivated. Patients are welcome to contact us directly at 416-586-4800 ext. 8714 to discuss their referral at any time.
