

Collaboration in Education Award – Nomination Form

Sinai Health (SH) staff and physicians (including senior Residents and Fellows engaged in teaching) are eligible for this award. Clinical Instructors of nursing groups are not eligible as they are not employed by SH when performing this role.

This award recognizes teams who have made an outstanding contribution to learner education through:

1. Fostering a team-based culture where education is valued and supported
2. Effectively integrating learners into the team
3. Providing opportunities for learners to engage in inter-professional practice and education
4. Role modelling the competencies for inter-professional collaboration (e.g. role clarification, communication, collaborative leadership, patient-centred care)

A strong nomination provides examples of these behaviours in all 4 areas.

Nominator and Nominee Details

Nominator Details		
Your Name:		
Your preferred email:		
Your Role (e.g. learner, job title):		
Your hospital site:		
I consent to this nomination being shared with the nominee:	<input type="checkbox"/> With my name	<input type="checkbox"/> Anonymously
